Still not over with the Ghost of Demonetization (GoD), the idea of GST and Aadhar are Haunting...!

Well the number of Phone Calls from Amravati, Azerbaijan, Zimbabwe, and many more places is getting better, the phone calls are followed by messages on Aadhar. The banking transactions are blocked from time to time. The Mobile FB page is blocked too with some Market Place page.

Not to Forget the array of messages flowing to push into Aadhar.

Literally no respect for the Supreme Court Judgement and No value of the Government Promise.

Deadly Digitization of India! Leaving us with No option than just sharing our grievances in social media.

Still not over with the Ghost of Demonetization (GoD), the idea of GST and Aadhar are Haunting...!

GST started with 100 INR Late Fee per day? Woo! So much! And now it is 50 INR Late Fee per day for any Filing and 20 INR Late Fee per day for Nil Filing.

And if that is Not Enough, the Filing Method is still not Transparent. And if that is not enough, One is unclear whether One must have a GST Number and File a GST if the Annual Income is below 20 Lac INR. And further to the woe of the GST Citizens, the Refund of any Overdraft (by mistake I did File 41K in an account, so basically filed twice the amount) looks like a night mare.

Seems there is some kind of WHITENED Robbery initiated by the Government. And to add to the apathy with the Government taking the CAs in confidence, the CAs are taking people for a Ride. Deadly Digitization of India! Leaving us with No option than just sharing our grievances in social media

I don't know whether the Nation Wants to Know or Not, But I Want to Know Two Things?

1. Should a PM holding responsibility of the entire country be campaigning for elections? and more importantly,

2. How long or Why a PM should en-cash the Tea-Selling (Emotional) Card to convince the Digital or even Dalit Citizens? and How long the Citizens will Buy the Card? Aadhar wise?

I want to be Proud of my PM who S/He Is Today, Not Who S/He was Yesterday!

Demonetization Still Haunts:

First hand experience after returning to India (Ahmedabad) and driving a mere distance of 10 kms to the VFS Global Services in an hour for a Visa application.

1. Two SBI ATMs enroute dysfunctional.
2. HDFC ATM took the card and gave the transaction slip of withdrawal but didnot deliver the cash. However, my ICICI account already showing withdrawal through SMS.
3. The VFS office does not accept card payment. ONLY CASH!
4. Rushed to nearby IndusInd Bank ATM and found a small queue due to the same above reason of VFS. and the ATM was so very A-Swachch...like a railway track side...Yuk!

1 March 2017

I'm getting more n more convinced that the Demonetisation Row has something to do with the US. First that the new notes are sized as US notes. Why the hell we needed to do that?

Now yesterday, I went for a Bars Session to a Lady Alex. Apart from the total fraudulence Bars experience, the lady offered me what she calls a 'Cheque' (a fake note) of One Million Dollars. The Fake note looks Dito as the Real note. I was upset to learn that the fake notes are available as gifts/souvenirs in the shops here. If notes are sold then I'm sure the shops are also selling the printing machines. It forces me to relate better what NM's baggage carried while returning from every visit to the US- The Fake Note Printing Machines... I guess NM brought several of the TFNPMs in the AF-1 for the BJP-RSS-AVBP-RBI colleagues to create a mess in the country.

I dont recall that we've ever had Fake Notes as gifts/souvenirs that we can buy from the shops since we never made a joke of something that is nearly godliness to most Indians. It feels now we are a step ahead, that we can get them through ATMs. So are the GoI and RBI trying to gift us fake notes through the ATMs? Are we going to have them in the shops as next plan from the GoI and RBI? Stop Americanizing the Currency and the Economy NM! The Green Grass in America is Fake and you must learn it by now since we The Indians are screwed by your American Obsession!

honestly i was this disturbed with the system last time when it was deve gowda as PM...i guess i can't take illiterate leaders...
not that i was happy with the system otherwise...then i had problems with i, u and the people who misused the law....hahaha...
but modi is breaking all heights of idiocy...more because of his arrogance...and in the spree of his stupidity, he accepted that he inherited a healthy economy...point to be noted guys....
no harm, if a PM shows honesty and expresses humbly his concerns about the demonetization effect....
instead, i learn that he misbehaved in the parliament...that reflects his frustrations and the panic of losing grip over power...pity that even a brahmachari's life can be corrupted by taste of power

23 January 2017

I'm not financially affected by demonetization, however I want to protest the infringement of the fundamentals of constitution and democracy by the PM..
Join the Group...!

India Against Demonetization is a Facebook Group of people of India who have been severely affected by India Government's decision to remove 500000 notes from circulation on 8th November 2016.

Every King that has followed the demonetization policy to withdraw bank notes, circulation, has never at all demonstrated how effectively the currency was protected.

We, the people, should have access to our own money. The money has been locked away in bank accounts and we have been made to stand in queues outside banks.

The policy applied and its implementation stinks and has been a thoughtless action, an attack on the freedom of the people.

The group considers the action of the government to be a single vote.

Government action has destroyed people's confidence in the currency. The banking system, and even the RBI, the RBI Governor and their advisors, have made the wrong use of their power.

We are common people who were told that they will be getting gradually income tax will be deducted if we have not to use any account not ready to get all incomes and payments have been made using the account as if it is only us the common people who have all the black money to start with.

RBI Governor has revealed that RBI does not know how much money they have printed, and continued that it has never had paper deposited and that they did not know how much black money has been printed. If RBI does not know this, then who does?

The blame for the issue is shared between RBI and the PM of India. We believe both are in blame and both the RBI Governor and PM should step down to restore people's confidence in the system.

We will start businesses and we Satisfy Our Own (Satisfy ourselves) or cash withdrawal providing a charge free electronic payment alternative.

We know that you and your business have suffered too. We are organizing a protest on 29th Jan. Starting at the grounds of Bharat Ghat.

We request you to participate in the protest in large numbers including the call of demonetization to see how far you can go. We request you to provide information about the protest to the members of your family, your relatives, your business associates and also to your neighbours and that people are able to come together and show their protest to the Modi Government's decision.

22 January 2017

As expected the Cash with people is more than currency in Circulation.

This was to happen since people have lost faith in the government, the RBI and their own banks and their business prospects. Under these circumstances hoarding is a natural phenomena...

Protest is Must!

Printing fake currency of 500-2000 is certainly part of the Demonetization (No) plan of the PM. From my Blog on Demonetization

From the recent history, such desperation to do something and do dictatorially allows drawing parallels with Zimbabwe President Mugabe and Libya's Colonel Gaddafi who also demonetized much to its failure eventually. Such dictatorial (despotic as Amartya Sen writes) implementation also allows drawing parallels with Adolf Hitler's handling of the war. Its poor follow up strategies allows drawing parallels with Joseph Stalin's communism rampage. And the paranoia generated from it allows drawing parallels with the Maoism from Mao Zedong's era. Unfortunately, this time the failure is affecting our country.

First, Demonetization is going on....

Next is: We'll be now pushed to use reliance jio, and for every day jio, use reliance toothpaste, reliance grocery, reliance veggie-fruits, reliance wear, reliance home decor, watch reliance movie n news....then soon to arrive reliance train, bus n flight.....then later reliance passport...finally...

India will be renamed Reliance...as that suits more: reliant to the other countries especially ammicca....even if non-reliant to its own countrymen!

Demonetization is Divisive...

More friends have lost me in the fifty days than in my nearly fifty years of life... A friend takes a second to comment the following on my fifty days research. Guys read this comprehensive read.

Nameesh Miglani: Don't comment if you are not associated with the country or Indian rupees.

He helps proving one of the fundamental arguments i make in my thesis that be prepared for every tom, dick n harry can now assault you for your nationalism. I bet he didn't even open the link of my thesis as he responded in less than 30 seconds. By just guessing that I'm not in favor of the move, he believes he has the right to assault. Had he even read the first page, he would have known the line, "i'm not against demonetization per se...."

I understand his inability and helplessness to produce arguments in favor of it like few of my other friends. For that matter, i bet they even read arguments in favour of it. SO the easiest they find to shut those not in line with their instinct is: to assault. And max they do is remove me from the friends group in wats app...hahaha... I feel pity on people who live by rhetoric and not build their arguments. I also feel pity for those who dont recognize what they (and their generations earlier) achieved in the seventy years of freedom. by doing so, actually they sound like they are embarrassed about their own being. One man comes a day and says we have not achieved anything, and they believe it without even looking at themselves. ofcourse corruption came as a package and all of us are party to it. And I find it intriguing when they claim to be fully uncorrupt and purely nationalist. They must be definitely singing the national anthem when they go to cinema..hahaha...If that is so, then the country shouldn't have been diseased with corruption in the first place.
