All Time Threat to the (P)eople of (M)y country!...

2019 election began way too earlier than previous elections with all possible Mantras and Tantras...Thanks to the Rotten Politics and Media!

Can someone please TELL LOUDLY to Mr. Puri that cutting Full Grown Trees and Replanting 10 Saplings in Exchange are not the same thing for Urban Ecosystem.

Mr. Puri, Let you Die and your Children be the Ministers. Will that be same?

Trees are Trees! Period! The saplings will take years to grow to Trees and the mortality of the saplings are unaccounted.

"Till the time I am a minister no tree will be cut and for every tree that is cut we will plant 10 trees. Green cover will go up by three times after re-development of seven colonies in South Delhi," Mr Puri said, adding, "Young activists are too fast to blame."

So true! In India, only Manik Sarkar now and Lal Bahadur Shastri in the past can be classified as honest politicians.. Rest are in the category of 1-100% Crook.

And if some day I become a Politician, I aspire to follow the former category.

The Commercialization of the Prime Ministership!  
The changes need to be Seen on Ground!  
Sorry, I don't see Sahi Vikas!  
Vishwas will be realised only when Vikas is Back!  
Rupee fell max among all Asian countries this year.  
Farmers Death on the Rise. Unemployment on the Rise.  
Pragati is Raped-Humiliated every moment.  
Looters are Flown abroad and the documents catch Fire.  
MPs/MLAs abusing people, religion, place...and eating money left, right and center.  
Public Properties like Defense, Air, Rail, Oil are on SALE.  
Fuel Price. Food Price.....GDP, Inflation....the list is endless...  
& then Party Grew thousand times stronger after Demonetisation.  
And above all Families, Friends, Communities are divided faster than ever....  
Sorry, I'm more concerned since I don't see Saaf Niyat,

New India Series! Seriously, while the planners are struggling to define Smart Cities, the Politicians are coining Super Smart Cities.... I guess, either the minister means City with Super Mart or with simply Jio4g, PayTM, Amazon, and likes. ... So what if the City is suffering from severe shortage of WATER to even eat and shit.... The new definition of Supersmart: The Dirty Asses White Collared Looters that Reside in Gurugram who do not know how to live and are doing consulting for the Smart City Project for rest of the country.

Agree. Ironically most Modi-fied people take a simple equation that criticism of the Modi is directly proportional to favoring Raga. Least do they realize or analyze that Raga is not in power to be discussed. His views and actions do not matter at this point in time. In a country where people are so judgmental, it is difficult to raise a constructive debate and discussion. As said the democracy is not yet matured to be debated. But c'mon we cannot use that as an excuse.

Visitors are good at destroying what they appreciate.. Absolute lack of sensitivity...

Solidwaste is Serious...

The ugly behavior of the visitors also tells their attitude... They don't belong there, so they don't feel before Littering... Very annoying habits Indian travellers have...Eating drinking and littering..

I bet if they are sent to heaven also for tourism, they will litter.. Look what they did to Meghalaya... and to several north and east tourist spots... Especially the central and west Indians have lesser sense of Cleanliness... Sorry this is true.. And mind you it is also reflected in the society and politics..

### 12 February 2018

Firstly, I'm not pro-Congress however, I can't deny the facts that I grew up in the Congress Period and that I achieved a lot from being a girl from a poor family to a woman that I'm today. Secondly, I see Governance and Politics as different entities.

Thanks Congress for providing a brief history lesson on governance overview since Independence. A good compilation by Congress as a reminder to all those who got carried away with the rhetoric of 2014 BJP election campaign that India (we) did not achieve anything since Independence. I would rather call this what India achieved since Independence rather what Congress did although there is no denial that Congress played a major role in it.

Besides coming so far in growth and development, yes! we have also grown some problems, an important one is 'the Corruption'. But c'mon! blaming Congress alone for corruption is Naive...Since everyone (literally) in this country is a party to this collective action game of

## Governance and Politics

corruption in a small or big way, intentionally or unintentionally. To some extent, corruption is here to stay as theoretically Governance/Policy Implementation biases are difficult to fully eradicate. Yes, it can be minimized, but only when the Common Man chooses to do so. It is not fully in the hands of the government to reduce corruption.

An important achievement in the process is 'the Democracy' that allowed us to get the current PM. Ironically the PM is unable to realize that he is elected out of the same system that he is cribbing all the time. It is High time that the PM is grateful to his predecessors and promise to take the country ahead based on the foundation/vision laid by them instead of dragging the country back into the wounded part of the history and bragging about the New India with a hollow foundation. I repeat my urge to him and those carried away that, "NO Nation is Built in 4 years of an election period. YES, a lot depends on what is done in the 4 years but that will be evident only after a decade". What the current PM is enjoying is EXACTLY what is done since Independence.

Anyway, it will be better if Congress projects it as what 'India' achieved rather than what Congress did...By doing so, Congress can make a statement that 'They mean India and the party is just a vehicle to work on India' thereby, projecting themselves as different from BJP. Otherwise, if they go like this they are also playing the same political rhetoric as BJP which is understandable given the preparation for the 2019 election. Given the current state of Rhetoricisation, it may be difficult for Congress to win over BJP on the rhetorics!...

Happy Republic Holiday! A day to hoist flag, sing/play patriotic songs, engage in sports, cultural activities n debates n discussions on patriotism. Then enjoy snacks, sunshine, and socializing.. DONE with national duty in 2-3 hrs. Now Holiday Starts. Then lunch, then watch patriotic movie on TV or play some pending movie/video or go watching Padmavati. Or take a long weekend break and travel nearby. Or just continue with office/domestic activities. What is so Republic in all or any of them? And by the way the tri color flags n balloons that are hanging in air today, Tmrw they

Why? Why Are we silent? We need to ask ourselves. An embarrassing confession: a woman, busy with home, busy with self identification so no time, complacent with the life, believe governmental things are business as usual, believe can't/ don't want to go solo in bringing positive changes, if do then may get hurt even killed, don't trust others, others don't trust me... And the excuses are endless.... And a Million Rupees thought at Midlife: Is it worth taking Nationalistic Headaches for those who themselves don't care? Typically trapped in a Prisoners Dilemma Situation. I give this benefit of doubt to many acquaintances.

Spot on identification of the three threats. But dear PM, is the government seriously working towards addressing them in our country? I have serious doubts about that with the current government policies on manufacturing/development that are against environment, the promotion and protection of the fringe group goons doing terrorist activities, and the rise of Hindutva going against the benefits of globalization. I sense two contrary things here from the leadership, first agree to the threats and second accept the failure to address them. In fact, it looks like the promotion of them in the current government particularly with recent activities in all the three spheres. That is a deep concern.

When such incidents happened, colouring it with politics and bad government are the Favourite Arguments in India...

I Resist on this Argument on the pretext of 'Responsible Citizenship'.

Why are the Developers, Designers, Owners, Tenants Not taking responsibility of the Wrong Doings? Those owning, renting and especially designing the spaces must be Aware of the Wrong Doings?

If citizens reduce Wrong Doings, then Governance is automatically good. Why to blame the rules and the authorities only post mishap when the citizens enjoyed the premise until before? Why did the premise holders disobey the well written Building Laws and build Illegally? Why

## Governance and Politics

citizens can't behave responsible and not wait for a Danda from the Government to do things Right. Such Attitudes have nurtured Corrupt Practices between the citizens and the government.

Specific Onus is on the Owners and the Designers to ensure the Law Abiding construction. Unfortunately, both are driven by Economy and not by Emotions of Human Life and Good Citizenship.

It is Naive to conveniently blame the politics and government Alone for Such Situations. Invest in Responsible Citizenship, Most of the Mishaps will stop Occurring.

RIP to the Souls!

Hindutva Karan (butchering) of the Poor Voiceless Trees at my township... I couldn't do much except screaming at the insensitive management and the maali.. This happened last year and the year before too.. And m sure those idiot men are laughing behind me that they won over my voice for the trees...I know the trees need to be trimmed. But butchering them heartlessly is so inhuman. And the worst part is they will take the broken branches and leaves and burn them alive. And by the way this is under the instructions of so called educated rich men (no less than idiots) managing the society. I always have a grudge why MEN take the task of managing such township when WOMEN are more equipped to do so.

A QUESTION that is hovering in my mind for long time is whether a PM of the country should be involved in the election campaigns when that person has vowed for being loyal and equal to the entire populace (bharat ki 1.3 billion janta)? Since after holding that position, the person MUST BE a GOVERNMENT EMPLOYEE and NOT a PARTY WORKER. This question also applies to the CMs. Is this anywhere clearly laid out? Is there any provision in the constitution to question this?

The I-Day Podium is for national speech and not election speech!

I do not agree that we achieved little in 70 years. We achieved a lot, however it came with a lot of price too, and one chronic price is the corruption.

I also donot agree to the idea a new India will be born between 2017-2022. This is shear political statement and considering 2019 as a followup term.

No nation is built in 5 years. A leader of that stature must acknowledge the virtues of the past to move to the future. by just shear politics, past cannot be only criticized. If so, then today will be also past some day. Then history will be written for the today.

Anyway, are we going to change the name of the India to New India? like Bombay-Mumbai, Madras-Chennai, Calcutta-Kolkata

We have come a long Way..as I liked when Guha says,

India is a Work in Progress..but worried when historical examples show that large democracies have undergone civil movements within their century of setting up the democracy....and India has not yet had it..

so are we working towards having it or avoiding it...? though the current state of affairs across the country is alarming yet there is a hope to avoid it with our still existing democratic virtues particularly the Unity in Diversity at I, we and you scale..Jai Hind!

Happy Independence Day! I hope we remind ourselves about the duties of freedom beyond just using the day as a Holiday to hoist a Flag, watch TV and do Whatsapp.

yeah! the ministry of utmost happiness! look forward reading it!  
wondering whether we really have a ministry of happiness at the centre, state and local to ensure happiness in the society.

it reminds me of my phd survey when i figured that none (nearly 220) of the respondents were happy with their jobs and the current situation of the government functioning and the city and some even life.....however, they were naive to call themselves as not being responsible for the cause of it...the typical blame game...'all are not doing good except me...and i'm suffering becoz of them..' probably we need happiness to be taught to the employees and employers in such cases...

Correction here...entire ahmedabad is not a UNESCO site...

the Ahmed Shah built Ahmedabad is the only UNESCO site...

now, a good question to ask the Hindu Clad Government whether we should debate abandoning Ahmadabad old city just like the debate of Taj Mahal being built by Shah Jahan..

It was pity to find the hundreds of Youth running around in the open Zeeps and Trucks just Shouting about Ramdev and Yog.

NM, Rupani and Ramdev are hanging on every turning of the roads across city and the state. Alongside are the Thela Gadis Yelling at the loudest volume about registering for the World Event.

In Short, traffic and peace on road are screwed to scream about Yog. Pity! And I can bet the day after the Great Event, the city will witness Heights of A-Swachchtaa!

As long as a Democracy is a Herd, such Events will be exploited.

My husband remarks, "This is a Funeral Procession of Secularism". So true!

Yes, America is first and is so at the cost of other countries...Yes, they are the First in destroying the world be it war, weather or wealth. And their claim to be the world leader....Yes, they are misleading the world towards unsustainable living...It is pity when the culturally rich Asian/African countries are desperately adopting everything of America/n, be it color, class, comfort. WW-III....We are already in a State of WW-III since recent past!

My Thesis looking around at the world...

Bomb Blasts- Syria, UK, India, Indonesia...and many more!

Raging War- US with everyone they don't like or need business with (Korea, Iran, Syria, Iraq, Afghanistan,.....). India's itching desire for war with Pakistan ....and many more!

Neighboring Countries Conflict- US -Mexico, Israel-Palestine, India-Pakistan/China, Russia and a few.....and many more!

Civil Unrest- US, UK, India, Syria, Palestine, Pakistan, ...and many more!

Then the Religious Extremism.

Then the Emergence of the Populist kind of Political Leaders who thrive on hatred and unrest....!

And above all Nature playing its part...The Climate Change- drought-flood, food, energy, poverty.....and many more!

What more is needed by the Humans (world leaders) to declare it A STATE OF EMERGENCY FOR HUMANITY....?

Nostradamus assumed us more Humane and predicted more Time for The End...His prediction seems right with little adjustment of Date.

Global standards set by the developed countries is to large extent an extravaganza for the developing countries especially far east, southeast asia, south america and africa...

We live in a country where a low income housing standard is set at 28 sq. mts., minimum wage with 3 dollars a day and per capita green space of below 1% in cities.

Its not good...

However, I find all the urban designs in the developed country cities to be under utilized,

## Governance and Politics

meaning high costs per capita for making and maintaining the cities...

If we are talking about sustainable development, it has to start with reduced consumption...and not only by alternative expensive consumption ...

Nevertheless the work is a great compilation....I hope our architecture planning schools not adopt it as standard and adapt and contextualize it to our standards...

Auroville, Yes Incredible!

what is to be shared about auroville is its economic mechanism. which tells why it is a place of no politics, no religion and no money...the later part has answer in its economic model...and also why aurovillians donot want it to grow as anticipated by the Mother...

When the President of India (and few more world orgs) ensures funding of the Auroville, all is possible. I want to live their and pursue my dreams...but do the aurovillians allow it...the early aurovillians benefitted out of the scheme...for sure..

Important Q to ask is why is Auroville not growing in number as anticipated. Are few people running the show there really keep it sanitised from the world. To an outsider, it looks no different than a living resort with few people having luxurious quality of life.

URGENT CALL

We have lost two important Children namely, Vikas and Saksharta. They were lost either in the last Kumbh Mela or in Demonetisation queues or in Kashmir or in Sukma!

Vikas is tall and digital...Saksharta is tender and dignified...

Anyone finding these Children, please bring them immediately to the PMO...The PMO is going crazy and running after Ram and Rahim and mistaking them as Vikas and Saksharta....PMO will certainly provide huge award for bringing back Vikas and Saksharta safely. Jai Hind!

Are the CRPF-Govt Officials running short of women to rape, molest in the cities and towns of Chattisgarh....that they continue mishandling tribal women..?

....Waiting for the government and the CRPF chief/ CM/Gov to accept the reckless acts of the men in service.....why do we hear one side of the story that too what the system botches up in the national media...and not hear the other side.....what will a politician/crpf/urbanite do when their women are mishandled...or are they thick skinned ..?

I bet Kashmir is also the same situation....The System that is made to protect its people tends to be the most dangerous for the protection of the people...Army/CRPF/Police all belong to this category....ofcourse the Law, the Govt....

A soldier should be declared as 'Martyr' only after thorough investigation of his career and character.....and not just because he got killed by a kashmiri or maoist... What a System Sirjee! Marne ke pahle reward aur marne ke baad award...! And what happened to those tribal women who were mishandled. I'm sure they are further mishandled and that is not even the news....

irony is: for common wo/men, to even look for a job, we need to send our history, civics, geography, dna, with PROOF (that too attested).....and for interviews we are suppose to carry the original certificates..else we are DQed.

and someone sitting at the highest post of the country is going all the way to the moon to hide his degree which is by now tagged as 'The National Secret of 21st Century' or the National Treasure....

Aren't the information like QUALIFICATION about the public (GOVERNMENT) personalities supposed to be in the PUBLIC DOMAIN...? Isn't it the Presidents responsibility to check the eligibility/education of the candidates before the oath ceremony?

NM's Dreams yet to be included here. His dream not hidden from anyone now...'A HINDU RASHTRA' where,

- Only Hindus will be considered nationalist, patriotic, honest so what if they beat, rape, cheat the country...
  - Singing RASHTRA GAAN (national song) in theater will make people more patriotic so what if people come to watch 'munni badnaam hui darling tere liye' and play whistle in the theatre every time they find women shaking her body...
  - there will a BIG Ram Mandir (that even Ram couldnot build due to poor GDP then),
  - Shivaji STATUE (tallest statue of the world that will reduce all the problems of the country esp with Pakistan because of its high tech detection systems),
  - DIGITAL INDIA with Bhim App (that too will remove all the problems of the common man as it will take away the cash worries of them and transfer the money to the bad Paytm guys who then will have to worry to hoard their money in partnership with the government),
  - DISINVESTMENT of Railway, Defence, AirInda, Coal, Petroleum, BSNL, as that will make government lesser worried about functioning, employments, pensions, and the gaints Adanis, Ambanis, TATA's, ZyduS, will be empowered to take care of the people of India,
  - JAN DHAN, where Jan (people) will have account but no Dhan (money) ..
- ...and the list will go ON....soon ...but for now..

- ....last but not the least...Pt. Deen Dayal is a larger figure than Bapu (Pt. and Bapu may never had to fight about greatness).. and ofcourse NM too is larger than any great leader the country has produced....as he can sit on the Charkha and make Khadi Sale rise (a good example of salesmanship) and as he could successfully kill the role of Opposition in a democratic country without even acknowledging (does he even realise the importance of having opposition?) their party's role in the previous governments....uff!~.

A BIG NO...but it is not about PrMu alone.....

we must change the presidential post from an honorarium retirement post to a more active and working post...

a president must do more than chanting oaths for ministers and cutting ribbons for inaugurations.....especially in the current political volatility, a president must be apolitical, patriotic and a powerful decision maker...

RIPping Public bodies piece by piece....

this govt will eventually sell everything to the business giants piece by piece before they are done and before we, the common man, even comprehend it...

why is the government not interested to strengthen and expand them..

RIPped Swaraj (the notion of devolution of powers to the common man)... Thanks to the Reliance!

We are taken over by the mighty monopolistic industry that also influences the functioning of our democracy... We are slowly and strategically pushed to this parallel state...Sad that people are accepting and letting it happen....

Btw, I bet it is not easy to find a Reliance employee who is proud to be part of the group...still they work...and probably excuse themselves saying - what to do, we have to work....And that is exactly what it is taking advantage of....besides manipulating the governance with corrupting the politicians...

We are struggling today in India more from such industrial giants than anything ....unfortunately we are going backward by busy fighting petty and baseless religious issues and these giants are going forward very fast with claiming/owning everything and anything of the nation state...

Unfortunately, it is not far when Reliance becomes the new Religion...I hope not to live live to see that happen...!

I'm trying to figure out an angle from which raja singh looks religious and patriotic... Seems Absolute Terrorist.

It seems in our country we dont consider Hindus to be terrorist.

And I assume that he is intellectually not equipped to tell what will India/ns gain from a bloody Ram Mandir...job/food/women/environment security...??? the bloody Ram Mandir will even fail to secure religion for which it is planned....

Rise against the construction of a Ram Mandir...!

GST: MMS is above politics.

He doesn't need to contest and compete with others.

GST and several other schemes of today are MMS's babies.

NM and BJP objected to all the schemes as opposition and now conveniently claiming those schemes to be theirs. Typical of NM!

His thanklessness to predecessors and others efforts is well known. I spotted his style right from Narmada.

Small analogy but reminds me that there are such people and they bear good fortune. I'd a friend long time ago who took my designs and wrote self's name on my drawings. Today that friend is a famous practitioner.

World Health Day!

WORK-LIFE BALANCE is CRUCIAL for self and for a healthy family and nation!

....And still many Indians (mostly men) I know think that by working (professional-paid work) more they are doing good for thyself, family and the nation.....Many even think that if they don't work, the World might collapse or stop working....and Many even think that spending time at home is a waste of time as it does not earn anything...and Many more even consider watching-talking-doing Cricket, wats app, facebook are Important works...ha ha haa..

....So even if I assume that they are working more, then how come they are stressed on self, at the family and the nation (with corruption, crime, discrimination, hatred and many diseases)..... These are also the men who conveniently consider the women to be not working enough as not earning enough, to be lesser intelligent as spending more time at home, etc.etc....Interestingly, like it or not, many women are socially inclined to a work-life balance as they take charge of the family-care and that may be linked to our patriarchal family system.....

.....So, yes I find such more-working people mentally and physically not balanced. I find them escaping responsibilities towards self, family and nation in the name of work. Yes they are working more. Work is earning for self. Things beyond work (often unpaid) are truly meant for the family and the nation. Arey! when one cannot take care of thyself, how can they care and nurture the family and the nation better...

A lesson from Ashtaang Yog: Take care of self to take care of others! Here 'care' is referred for physical and mental goodness and not meanness and consumerist good...

Racism is integral part of my society. It can be experienced right from birth, upbringing, marriage, relationship, professions, passions, preferences, opinions, favors, hatred, ....and the list can go on....

Infact traveling around the world, I find India to be the most racist land. Our colour hues even between the siblings and spouses change the relationship dynamics, outsiders are outsiders....so

## Governance and Politics

we have white as bold/beautiful, brown as ok/mediocre, black as ugly/wrong/goon/gunda... colour imperialism existed since antiquity even during ram, krishna, and may be before....it only got licensed/certified with the westernization....

along side , the vacancy rate in the buildings are on the rise...since wealthy middle class and the elites are making investments....and leaving spaces empty.....without realizing their individual actions impact on society.....

and we are still not building enough affordable housing (not to be equaled as low quality so called low cost housing for low income people)...where there is a demand....so Failure to match the Demand Supply Gap.

with modi's last speech (disgusting) in parliament as:

मोदी ने कहा कि बाथरूम में रेनकोट पहनकर नहाने की कला कोई मनमोहन से सीखे.

, he proves:

he is certainly not serious about the dignity of the post...

and he is definitely not eligible for the post...

he is way too panicked now about proving himself right and about losing power...irony is that in the process of the speech, he did admit that the economy was healthy.....that means we did achieve something in the last decades unlike what he projected before.....ofcourse corruption came as a package...because of i, u and all....

modi is certainly not a true reflection of the citizens of India, not even the poor n the illiterates...absolute unacceptable remarks by a PM... scary to have a leader like him at that post....

i'm really scratching my head as how to get this guy out of the post...so much so that i'll go bald soon...hahaha...

Modi/BJP going Bananas...!

A New Drama of REMONETISATION....

Interesting to watch in the video is that Modi is not acting...

More interesting is that it says...STOP DOUBTING...Start Acting

This is a major eye candy to the nation...

Modi must be having good Ad-Masters. Who is that?

The Media, on the other side, is totally banned to talk about Demonetization...

Even President in his Republic Day Speech, conveniently avoided talking about it...as if nothing happened in the past 80 days...

I fear if people forget the meaning of Republic Day, Independence Day, Democracy, Constitution, ...more importantly Freedom...!

I'm still shocked about how tolerant We Are....

And we may recover from the situation...

But atleast let the government know that it is not because of it...but because of our traditional wisdom of living economically sustainable...

Modi to Trump: Few Lessons

- call every protestor a terrorist, linked to russia as you've been doing for decades just like we do for pakistan,
- stop environment funding, the climate is not changing ...just get rid of the forests to build hongkong-singapore like we are doing for smart cities.
- do frequent mann ki baat to the fools who voted for you.....
- 

Now i want to tell Trump..learn the name of your country first ....learn the names of the states you have in USA not America...else you'll keep talking of your state model...and if you take lessons from modi...you may end up talking of Gujarat model....and start doing Vibrant America instead of America First....hahaha

Smart City: actually I started disagreeing with the PM since this idea...demonetization is much later....

Please citizens involve not to make those monstrous smart cities but more humane sustainable habitats...i guess if tokenism in planning is removed and real participation is there...we can get away with such visions of smart city...but do the planners really want real involvement...?

I feel pity how my friends ran for the Smart City jobs...instead of correcting the vision of Sky scrappers and IT as smart, they cemented it...

Smart City:

I'm scared when my learned friends (planners, architects, designer, economists, socialites, bureaucrats) aspire Smart City as a jungle of towers atleast in their graphic representation of vision plans, cover pages, blogs, etc....then it is really immaterial if the inside story talks about sustainability, resilience, adaptability....pictures speaks thousand words and the imprints stay longer than the words in our minds....

Unfortunately those few learned friends are selling and buying the ideas for the future of the many who have a completely different and grounded view of living....

And if Smart City initiative simply does all the drainage-water supply, primary health and education and public open space services, I'll be content and supporting it...

Please do not promote hollow and horrifying dreams....

Do we really need a President? Do we use the position of the President?

Pranab or no Pranab is really irrelevant....

President though is the head by all means, but remaining inactive for long time except enjoying the position....

Currently, if the PM becomes more powerful than the President or PM=President=PM, then why do we need a President....the currently President has R.I.P. ed the position just like other top government offices.

## Governance and Politics

We only need a President if that position talks and walks with the people.

Nehru Narendra Damodar Modi Gandhi.....

Hang on, what happened to demonetization narratives...?

Charkha/Khadi are no digital and cashless....neither are they doing a business?...they are for Swaraj...which is too contrast of Modi's style...

Modi is checking the tolerance of the people...soon following replacements ....

NM in indian currency, replacing the deities in temples, replacing rameshwaram in south, krishna in west, jagannath in east, shankar in north.....replacing jesus in churches...thank god there is no deity in mosques.

all gandhi-nehru roads go to modi roads now...i wish he had brought his relatives names here , so navigating will not be so confusing...

Soon, M-Jio, M-Khao, M-Kharido, M-Pio

### 13 January 2017

If this is true...nothing wrong with it....since ...if gandhi can sit on charkha/calender...modi can sit too...and aspiring to be gandhi is also no wrong...

but the irony is...trying to be gandhi or be so complexed by gandhi (read family here), or so obsessed with the gandhi (family again) ..they all show his insecurities of his background and past.....he must be proud of being modi...

## Governance and Politics

and more irony is...if he thinks he can remove the gandhis from the country. that is naive. anyway the monarchical gandhi may soon dry out with RG...but thinking of removing mohandas karam chand gandhi and his Martyr will be going bit too far...and he may have difficulty succeeding that...but who knows...

actually i was expecting (and had a bet with akshay) him on the new 2000-500 notes...so i think he actually compromised this year only with kahdi calender....guys get ready to face him and have him in your wallets in the soon rounds of currency printing...

guys get ready for Modi-kurta, Modi-achar, modi carpet, modi saree....I wonder when will be discounts offers by KVIC then....Modi's birth date is anyway unclear.....death looks nowhere near as he thinks himself immortal ... I thought we were going JIO way...but this looks like JIO MODI JIO...

Jeez! he is so obsessed with himself....he would have been better if stayed married and with family....he could have seen the world beyond I, Me and Myself.....

Gosh! is he into his mid-life crisis badly that he is on a spree to immortalize himself in every possible way.....can someone please inform him aloud that he is registered in the history books now...no need to panic...hahaha...

.and the government still has to come up with a plan to reinstate the employments of these few enlisted destitute (modi's pyare mitron)....do you think, another round of unhealthy MNREGA?

....apathy is government still has to come up with a plan to reinstate the businesses in which they were absorbed....do you think more loans or interest reduction for start ups can do the trick...can these bros are equipped to do start ups? in any case government doesnot promote agriculture and forestry....it is all about development, development, development....

---all the more apathy is government still has to come up with a plan to bring the corrupts to justice, if that was at all its primary agenda....do you think the real corrupts will be put behind the bars?....I think NO,

but the government is certainly good in doing justice to the tagged opponents of demonetization: the so called corrupts, anti-nationals and Pakistan like...

NM's new year speech...

What a waste of time it was for 1.2 billions pyare bhaiyon aur behnon...

it felt like an advertisement of Zhandu Baam...first made a cut and then applying antiseptic cream...

i was NOT shocked by the below dignity speech by him, that too talking about modernization....he is so obsessed with demonetization (like few of us) that he lost his decency of talking...like me now...i feel disgusting about him and now about me following him..

he has lost his mind...he forgot that the podium was not for a political rally....but to address a nation....gosh! he is so complexed and still fighting with MaMo-Gandhi in his mind...they are stuck in his mind with fevicol...just like he is right now in my mind...jeez! please someone teach him the difference between being in politics and being in government...

it was so hollow...he's got it so wrong about modernization.....please someone teach him the difference between finance and economics.... modernization is not only about digitized transaction alone....also if the BHIM can assure, Men will be Men.... no rape, no domestic violence, no molestation, no child abuse, ...even if he had said from tmrw there will be no eve teasing in the country, I'd have appreciated him..no mention of primary health care, primary education, environment protection.....instead he asked us to shop atleast 4-5 times on 1st jan....has he lost his mind....he is treating us his consumers....

Above all he is selling the idea that digitisation (earlier cashless ) will fix all the problems of the country. ..just like the new gen thinks....everything is possible if one has a mobile.....bread is made in bakery...and not in the farms, milk is made by amul not by cow...

uff....he just sounded like a sadak-chhaap....in the spirit of winning the so called common man (in his mind) he knows he has to speak their language.....

i've no doubts that it is his language too.....Watch it! if this his image of common man, he has to improve his imagination. .

I'll expect a person of that stature to be a noble person...even if s/he speaks less and live upto the dignity of the position..

above all, i want to kill those IT guys from the silicon valley who've captured his mind about these daily sop ideas of lottery n mega lottery....and the script writer who is writing such awful speeches for him....

I feel embarrassed to have heard the speech...it was literally not worth it....
