New India Series...2019 Election Saga...!

Joke of the Day! ..hahaha..

Goyalji promises Black Money Data in 2019....and probably will promise Recovery in 2023...great plan!....

If you can get a Hair out of Swiss Bank, let alone Data...The information on which this response is made is prepared every year by the Central European Nation...Gol can only make promises before Elections...Goyalji, why dont you leave the Black Money issue for post 2019 and First Focus on the proper utilisation of the White Money in the Governance....First get us Demonetisation, Aadhar Card making, Nirav Modi, Mallaya, Jay Shah...Data....before the 2019... The 2019 election Issues are getting categorized and Ministry assigned...to Bloat, Bark and Boast. However, the ruling party is likely to run out of Issues given the fact they have a handful left now like Black Money, Ram Mandir, Pakistan, Muslim....As they cannot speak about Viaks and Pragati....And they were never interested in environment, women and children ....

Bankim Chandra Must be Crying in his Grave/Ashes...uurrgghh!

Where are we Heading with the Illiterates and the Thugs?

What are the Literates doing? Why we are unable to stand?

**26 May 2018**

Countdown for 2019 Election begins.

The media and the Current Government must understand that Societal Changes do not happen in mere FOUR years...It requires Fourty Plus Constructive Years.

My suggestions to the Current Government will be:

1. go beyond: Modi=BJP=Modi=BJP=....

Even the Media and the Bahkts are unable to imagine the Party beyond Modi.

2. go beyond the apprehension of the 70 years since the party and modi are also the product of those years and do an appraisal of what can be achieved in the next seven and seventy years using the past 70 years foundation.

3. go beyond HINDUTVA politics. Do Sarvdharma not Sanaatan dharm.

4. go beyond PRIVATISATION politics. Support Grassroot/Small Scale.

5. go beyond WAR Politics. Spend in Peace.

6. go beyond DEVELOPMENT politics. Spend in Growth particularly in Happiness and Health.

7. go beyond ECONOMICS of everything. Spend in Ecology, economics will happen.

8. go beyond HATE and HURT politics. Get Compassion and Care into action.

9. to do all the above go beyond MEN politics. Get more WOMEN into the mainstream politics.

## New India Series

The amount of resources used in hate and hurt is way too far now than the resources used for real peace and passion. The things going on as shared in the video is Utterly shameful and serious.

We certainly need two ministries urgently.. Ministry of Peace and Ministry of Happiness!

Kar-Election-Natak ! No Surprises!

Deeply concerned about the Assertion of:

India = BJP = India.

The Confidence in the Statement is Cancerous!

Can we really get the critically thinking people discuss the Dance and Death of Democracy happening in the Country?

I'm really Questioning the Mandate of the People and the Election Engineering Process of Seat and Vote Count.

Kar-Election-Natak ! No Surprises!

INC didnot come out winning NOT because of Siddaramaiah who is considered an Architect of the Today's Karnanatakae!

Half of the battle was Lost by Weak Demonstration of Opposition to the National Issues linked to the State like the Cauvery, Demontisation, GST, etc.

Remaining Half was Lost on the Day When RaGa Expressed his possibility to be a PM in 2019 just a few days before the Voting. Disastrous Statement before a crucial election.

The lack of motivation is clearly evident in the INC and that is mainly because of the Leadership and Lack of Strong Strategy to form a Futuristic Vision and even to Oppose the Ongoing

Governance.

RaGa must rethink to be a Party Worker than a Party Leader.

My full support to the youth who are daring to get into social political activities. They are not those parent-pampered secured-spoiled youth who are studying to just find a good job, go abroad and marry rich. I think for tomorrow. I like to invest my energy on these young leaders. I believe we must nurture them for the future.

### 10 January 2018

Pity that a So Called Friend responds like this to my post...

"What a crap.... Youth ???"

You can support any pigs just because you hate Modi...!!!"

My Post..Hope the youth energy be channelized in making a future that spreads positive vibes and virtues and not get into the same vicious mode of dirty politics. Good to see Youth in action though!

Voting Today!

I keep wondering why voting is constrained to a ONE DAY affair. Why can't it be a WEEK or a MONTH thing or at the least 2-3 DATES options, so that people can go at their convenience to vote.

I've come across a number of situations where people are unable to vote such as,

- a colleague's mother expired today morning. obviously the entire family will be unable to go for voting.

- my students are busy preparing for exam. some may go but it is likely that some chose not to go.

## New India Series

- i'm unwell and i would have preferred voting day before when I was doing good or may be a few days later. i'll go but still a case.

- a friend has to travel for work so he cannot vote.

- a friend is even unable to go for voting since he is super busy today.

- and even a friend who is not in a mood today to go for voting just like that.

.....and the situations can be aplenty.

Let there be a Start and Closing date for Voting and let people chose to go for voting at their convenience and will. This will definitely increase the voting percentage. Indeed, the EC has to work on the Safeguarding part of it. But C'mon! We are talking about Digital India! Can we not Use it! Atleast for this purpose, can we copy the West...

### 7 Novemeber 2017

Sorry, I don't expect a PM of a country to use such cheap statements about anyone and anything just for the sake of winning an election.

For what is aimed as 'Congress Free India' is alarming as the true manifestation of that sounds and feels like 'No questions and opposition to the ruling party for what it does'. This is concerning since it challenges the idea of a true democracy....

And for a second, if one imagines a Congress Free India, will other opposition parties be accepted? And if it is going to be 'Opposition Party Free India', What does that mean...?

<https://www.ndtv.com/india-news/himachal-pradesh-assembly-elections-2017-congress-like-termites-wipe-them-out-says-pm-narendra-odi-i-1771145>

A QUESTION that is hovering in my mind for long time is whether a PM of the country should be involved in the election campaigns when that person has vowed for being loyal and equal to the entire populace (bharat ki 1.3 billion janta)? Since after holding that position, the person MUST BE a GOVERNMENT EMPLOYEE and NOT a PARTY WORKER. This question also applies to the CMs. Is this anywhere clearly laid out? Is there any provision in the constitution to question this?
