

A Pedagogy Towards Building Responsible Citizenship

©Coordinator: Dr. Mansee Bal Bhargava

The listed **Workshops, Lectures, and Courses** are designed after a thorough exploration of the education in India in the field of Architecture, Planning, Civil Engineering, Urban Management and Governance. The workshops, lectures, and courses are developed for the students particularly to complement what is being taught. Some of the workshops, lectures, and courses are extended for training the trainers. The list of workshops, lectures, and courses is together presented as an Introductory Special Lecture as 'A Pedagogy of the Built Environment towards Responsible Citizenship'. Institutes/Organisations interested in conducting the workshops, lectures, and courses or the introductory lecture are requested to contact at e-d-r-c@edc.org.in and +919824092804.
